LOOKBOOK

CHÀNTA

CHÀNTA is a young brand established in 2018 and the name itself means “bag” in Bulgarian language. Our company is based in the USA, but the bags are entirely handcrafted in Italy, the Marche region specifically, representing the idea of true craftsmanship and slow fashion.

Each and every one of our bags is carefully handcrafted in our Italian atelier using a century-old technique where each piece of leather is expertly cut and fitted by one of the best Italian artisans. We are passionate for the preservation of craft and we share appreciation for the finest materials as every detail in the making from the painting of the leather to the last stitches is made by hand. We celebrate the old savoir-faire, we preserve and explore it but also strive to create something new that combines the tradition with the sense of the here and now.

The concept as well as the excellence in craftsmanship translate into a stunning collection of luxurious handbags, examined from a bold perspective. The designs in their architectural silhouettes are classic and at the same time with a distinctive fashion character but most importantly are created to maintain relevance and quality over time.

We offer free lifetime warranty covering any quality issues related to the materials, workmanship and the natural wear of your bag. With proper care you should be able to wear your CHÀNTA bag for a lifetime.

We are committed to ethical production, ensuring that all the people along the way are treated respectfully and fairly in a safe and healthy environment. Oriented towards conscious luxury we share sustainable values, advocating for higher ethical and environmental standards and working with suppliers that are certified as such.

GIADA LARGE

The Giada bag has been meticulously constructed by hand in our Italian atelier from croc embossed leather that highlights the exquisite geometric shape. The spacious leather-lined interior is roomy enough for everything you might need during a busy day while the oversized silhouette is giving us major fashion-forward vibes.

FRANCA

The beauty of the Franca clutch is that while it may appear compact in size, the accordion shape will keep all the necessities in place - think phone, keys, cards and lipstick. Expertly handcrafted in Italy from the house's signature croc-embossed leather it is topped with a delicate gunmetal "Chanta" plaque to match the strap. Carry it cross-body using the chain strap during the day or hold it in hand as a finishing touch for that evening look.
